

## ABOUT

I am a data engineer skilled in AWS (S3, Glue, Lambda, Step Functions) and on-premises data solutions. I optimize pipelines, ensure data integrity, and create visualizations with Tableau. I'm passionate about data-driven decision-making and exploring new technologies in data and machine learning.

- Tools: Git, Ruby on Rails

### NLP Researcher in Artificial Intelligence Laboratory | Jun 2021 – Aug 2021

Telkom University Artificial Intelligence Laboratory – Parttime

- Research About Dataset Question Answering Covid 19 in Indonesia
- Tools: Python

### Software Engineer (Frontend Developer) | Jun 2021 – Aug 2021

Educa Studio – Internship

- Participated in Mini Project Make Landing Page and Dashboard
- Tools: HTML, CSS, Bootstrap, Javascript

## EDUCATION

### Telkom University

Bachelor of Informatics

- GPA: 3.82/4
- Top Graduate of The Faculty

### SMAN 1 BUKITTINGGI

Natural Science

## CERTIFICATES

### Fundamental of Big Data | 2021

Databricks

### NLP with Classification | 2021

DeepLearning.AI

### Data Visualization | 2023

Dicoding

### English for Business | 2022
